Assistant Principal

DISTRICT VISITATION POLICY

We welcome parents and visitors on our campus! In order to promote campus safety, we require all parents and visitors to report to the front office and receive a visitor's badge prior to reporting to any location on campus. Parents and visitors may be screened upon presenting any of the following forms of identification at the front office:

1. A state-issued driver's license or identification card (all 50 states)
2. A United States Military identification card
3. A consular identification card issued by the government of Mexico
4. A United States Permanent Resident Card

Any other form of identification, including passports, must be screened by the District's Safety and Security office. An appointment should be made with Mike Jones' office by calling 767-4127 to expedite this procedure. The school will be notified by the District's Safety and Security Office once an individual has been cleared to visit campus.
